OUR KEY PRIORITIES FOR A SLOUGH THAT WORKS FOR EVERYONE

There is an alternative to Labour's waste, substandard delivery and chaos - **Our united Conservative Team** are passionate about Slough and have a vision to turn this around. Our priorities are:

Tackle our Traffic & Congestion Problems

Labour has failed too many areas of the borough that are poorly served by existing public transport with no access to bus routes at all. We will work to correct this by working with partners to open up new bus routes, review road traffic measures causing congestion, and sort out issues with parking across the borough.

Reduce Crime & Deal with Disorder

Too many areas of our town are still dealing with high levels of anti-social disorder. We to focus on new initiatives such as "drink tanks", forcing council & Police to focus on making our town & parks safe places for all, and working to put more police on the streets of our communities.

Tighten up on Housing Development & Quality

For too long new housing developments in our town that have not provided the level of quality, accessibility or environmental considerations. We will enforce a new standard on all developments to ensure that they do.

A University Campus linked to our Regeneration

Slough with its strong commercial bases deserves a Higher Education campus – but one that serves local people well, and puts young people at the centre of our towns regeneration to ensure we keep and attract the best talent in our town.

More Effective & Cost Efficient Council Services

We believe residents should get value for money and are best placed to choose how to spend their hard earned cash. As a result we will find ways to maintain budgets year-on-year by finding efficiencies in the way SBC is run and how it spends our money.
